ABOUT ME

Passionate Software Engineer with expertise in Angular, TypeScript, React / Next JS and modern front-end tools like Tailwind, Prime NG, Material, Bootstrap, and responsive design. Experienced in building scalable web apps, integrating RESTful APIs, and contributing to full-stack projects with C#, Node.js, and SQL. Familiar with DevOps pipelines using Azure, Jenkins and Docker. Committed to clean code, continuous learning, and collaborative development.

EXPERIENCE

IDATAGROUP TECHNOLOGIES

Oct 2025 - Now

ANGULAR DEVELOPER / FULL STACK

Modernising a large-scale eBanking platform, migrating legacy AngularJS to the latest Angular. Complex banking workflows across payments, transfers, approvals and multi-step transactional journeys. Figma designs turned into responsive, production-ready interfaces. .NET BFF integrations, unit testing and Azure DevOps pipelines.
